MEMORANDUM FOR: CIA Member, NFIB

SUBJECT : DCID 1/--, "Security Policy Concerning Travel
and Assignment of Personnel with Access to
Sensitive Compartmented Information"

1. Subject memorandum dated 3 March 1977 and its attachments have been reviewed by appropriate elements in this Directorate. While there is no disagreement with the proposed DCID, I would like to point out that the DCID, as proposed, states in paragraph 1 that it pertains to U.S. Government employees and to "government consultants and employees of government contractors," while the OGC opinion appears to pertain only to U.S. Government personnel. A clarification would appear to be in order.

2. With regard to NSA's recommended version of paragraph 4a, we do not believe the evidence supports the need to restrict unofficial travel to the referenced countries. In any case, if NFIB should seriously consider adopting the NSA version, we suggest that language be incorporated which would allow the Senior Intelligence Officer (SIO) to delegate approval authority to the deputies. The current wording would appear to limit the approving authority to the SIO.
